NAGARJUNA KAMIREDDY

Corporate AI Trainer · Generative AI & Agentic AI Instructor

+971 50 742 4361 · +91 93913 47406 · gmailtonagarjuna@gmail.com · Dubai, UAE · Available immediately

280+
live AI training sessions in 2026

570+
teaching hours delivered online

~1,000
professionals trained at Surya HANA Academy

20+ yrs
enterprise data & AI; led a 12+ member AI team at John Deere

Certified: **AWS Solutions Architect – Professional** · **NVIDIA-Certified Professional: Agentic AI** · Anthropic & OpenAI agent courses

TRAINING PROGRAMMES I DELIVER

1. Generative AI for Leaders & CXOs
1–2 days · executives, managers

What GenAI and agents can and can't do, picking use cases that pay back, ROI, risk, governance (EU AI Act, NIST AI RMF) and a 90-day AI roadmap.

2. Generative AI & Prompt Engineering for Business Teams
1–2 days · all staff

ChatGPT, Claude, Copilot and Gemini for daily work: writing, analysis, research, automation and safe-use rules.

3. Agentic AI Engineering Bootcamp
3–5 days · developers

Build AI agents with LangGraph, CrewAI, AutoGen and the OpenAI Agents SDK; tool calling, MCP, A2A, memory and human-in-the-loop.

4. RAG & Vector Databases
2–3 days · developers, data teams

Chat-with-your-documents systems: chunking, embeddings, hybrid search, reranking, GraphRAG and citations.

5. LLM Evaluation, Guardrails & LLMOps
2 days · engineering leads

Measuring AI quality (RAGAS, DeepEval), guardrails, red-teaming, monitoring cost, drift and latency in production.

6. Cloud AI: AWS Bedrock, Azure OpenAI, Vertex AI
2–3 days · cloud & IT teams

Building and deploying GenAI applications on the major cloud platforms, securely and cost-effectively.

7. Python for AI & Machine Learning
3–5 days · beginners to intermediate

Python, data handling, scikit-learn, PyTorch and Hugging Face fundamentals with hands-on labs.

8. AI Coding Tools for Developers
1 day · developers

Productive, safe use of Claude Code, GitHub Copilot, Cursor and Codex in real projects.

HOW I TEACH

- **Hands-on in every session:** participants build working examples, not just watch slides.
- **Real case studies** from production AI: a GenAI product taken from ~30% to ~70% accuracy, 750K+ automated requests, 42K+ hours saved.
- **Formats:** classroom, live online (Zoom/Teams), hybrid bootcamps, corporate workshops, certification prep and 1:1 mentoring.

Happy to deliver a free 30-minute demo class for your team or students.

Courses can be customised to your audience, industry and schedule.
